RE: South Carolina Electric & Gas Company
Notice of New Natural Gas Construction Project
Docket No. 2006-244-G

Dear Ms. Boyd:

South Carolina Electric & Gas Company ("SCE&G" or "Company") is required to notify the Public Service Commission ("Commission") and the South Carolina Office of Regulatory Staff ("ORS") of natural gas construction projects with costs of \$500,000 or more. *See* 26 S.C. Code Ann. Reg. 103-412.2.7(A). In compliance with the regulation, this letter serves as notification to the Commission that SCE&G plans to remove a portion of 6-inch steel natural gas pipeline currently attached to the existing South Carolina Highway 171 bridges crossing Folly Creek and Folly River in Charleston County and install new 6-inch steel pipeline under these waterways.

By way of background, the South Carolina Department of Transportation ("SCDOT") informed SCE&G that it will be replacing the existing bridges that cross Folly River and Folly Creek by constructing new bridges. As a result, SCDOT is requiring all utilities to relocate their existing infrastructure attached to these bridges and is not allowing utility infrastructure to be attached to the new bridges. Therefore, SCE&G plans to install the replacement pipeline under the waterways by directionally drilling.

SCE&G anticipates that construction of the replacement 6-inch steel natural gas under the Folly River will begin in the first quarter of 2011, but it is possible that construction may not begin until later in 2011. As for Folly Creek, SCE&G anticipates that construction of the replacement pipeline will begin in either the 2nd or 3rd quarter of 2011, but it too may occur later in 2011. The Company anticipates that the total cost of this construction project will exceed \$500,000.
